Cara pemakaian:

Pastikan permukaan benar-benar kering dan tidak lembab. Permukaan harus bersih dari berbagai kotoran, sisir serpihan cat, lilin atau minyak. Sebelum pengecatan dengan Napoli Acrylic Emulsion Paint, lapiskan permukaan dengan water base alkali sealer atau wall sealer untuk menciptakan hasil yang lebih baik.

Directions of use:

Ensure surface is thoroughly dry and moisture-free. All surfaces must be cleaned from dirt, paint flakes, wax or oil. Prior to paint application, coat the surface with water base alkali sealer or wall sealer for better paint result.

Aplikasi cat:

Aduk cat hingga merata sebelum pengecatan. Encerkan cat dengan 20% air bersih untuk lapisan pertama dan 10% air bersih untuk lapisan berikutnya. Tenggangkan waktunya antar lapisan selama 2 - 3 jam disesuaikan dengan keadaan cuaca. Tutuplah kaleng cat dengan rapat, setelah pengambilan cat agar cat tidak terkontaminasi.

Paint application:

Ensure paint is mixed properly prior usage. Thin the paint with 20% clean water for the first coat and 10% clean water for the next coat. Allow 2 - 3 hours drying time between coats depending upon weather condition. Used paint should be properly sealed to avoid contamination.
